three
for
saxophone
quartet

rachel devorah

- play the notated Weiss + Netti multiphonics over and over again where they are indicated.
- stagger / dovetail the beginnings + endings of sounds with the others whereever possible.
- when you can play loudly, please do.
- when notes are unstable but you have some control over them, try to oscillate eighthnotes where ♩. = 60
- put silence between the sections, but please don't break as if they are separate movements.
